

ABOUT US

We feel enthusiastic to introduce Rialta Industries Pvt. Ltd., as one of the fastest growing company working into the field of electrical manufacturing and services. Our corporate office is in Ahmedabad, Gujarat and we have experience of executing projects across Gujarat and Madhya Pradesh. We employ the best possible project management methodology to make sure the customer projects are completed on time and fits budgets. Motivated and trained staff at Rialta ensures the customer requirements are met with the highest level of quality standards.

Our team of project engineers, designers, panel assembly and field technicians are dedicated to make sure the systems are designed, delivered and commissioned to meet each customers' tailored requirements. We also believe that safety is at the centre of what we do. "Safety First" is our mantra and we make sure all of our team members work with the consideration of safety. Each of our field staff is well equipped with safety apparatus and are trained as per the safety requirements of all site work.

We have a strategic partnership with Adaptive Engineering Pvt. Ltd.(AEPL) to provide all types of industrial automation systems. AEPL is specialized into automation systems from a simple machine control to plant level hot redundant systems.

Our company is committed to provide electrical systems to our clients with the highest quality of electrical products and services. We also care our employees and the communities we serve. We are proud to be a part of electrical industry and are dedicated to the principle of free enterprise. We commit ourselves to serve to our customers to establish a very long term business associations with them.
